

**Addendum to MCM/2009/AUG/SWG-WCRL/17: Correction to areal-split values in for Global TAC**

The Table below reports the correct values for the Global TAC column. The mistake was that that column was printed out in the program prior to the rule of taking 5% of Area 8 TAC and splitting it between A34 and A7.

Table 2: TAC recommendations for the 2009 season using OMP-2007 re-cast.

	<b>Global TAC (Commercial + recreational)</b>	<b>Commercial only</b>	<b>Offshore allocation</b>	<b>Near-shore allocation</b>	<b>Recreational</b>
<b>Total</b>	<b>2393</b>	<b>2136</b>	<b>1685</b>	<b>451</b>	<b>257</b>
A1-2	29	24	0	24	
A3-4	170	138	65	73	
A5-6	64	32	0	32	
A7	431	421	421	0	
A8+	1698	1521	1199	322
