

2012 Workshop

Exploring QCD frontiers: from RHIC and LHC to EIC

Stellenbosch, South Africa

January 30 to February 3, 2012
STIAS Conference Center

Topics Include:

saturation and its measurement; parton densities, nuclear spin and angular momentum, and generalized and transverse parton distribution functions; constraints on initial energy-density formation and connecting initial conditions to hydrodynamics in heavy ion collisions

Local Organizers:

J. Cleymans
A. Hamilton
W.A. Horowitz (chair)
A. Peshier
Z. Vilakazi
H. Weigert (co-chair)
