

Year	Name	Thesis title	Supervisor
2024	Michael Heydenreich	Who ate the taco? Sedimentary and tectonic features related to bedding parallel faults in the Lower Table Mountain Group	Johann Diener and Miengah Abrahams
2024	Nokuthula Ubisi	Palaeoclimate reconstruction using speleothem stable carbon and oxygen isotope from the cradle of humankind, South Africa	Robyn Pickering and Rieneke Weij
2024	Marang Keebine	Characterizing the modern and palaeo-climatology of the Kalkkop palaeolake	Robyn Pickering and Andriantsilavo H.I. Razafimanantsoa
2024	Bokang Ngalo	Fluid-induced alteration of amphibole from Aggeneys, Namaqua Metamorphic Complex	Johann Diener
2024	Hasan Smith	Classification and petrogenesis of the two-lithology Martian meteorite Amgala 001	Geoffrey H. Howarth and Chad J Peel
2024	Anwar Adams	Assessing strontium isotope analysis of sheep teeth for tracing historical herding patterns	Petrus Le Roux and Judith Sealy
2024	Ridge Swartz	Jurassic Park Retreat: Newly discovered dinosaur tracks from the upper Elliot Formation at Mafube (eastern Free State)	Miengah Abrahams and Robert Muir
2024	Cwayita Mdunyelwa	Imaging the Moho in North Texas using autocorrelation of teleseismic earthquakes	Diego Quiros
2024	Anele Msomi	Depth profiling of the Hex River Tunnel using train induced seismic waves: an autocorrelation study	Diego Quiros
2024	Daniel Botha	Neotectonics of Zimbabwe	Alastair Sloan
2023	Catherine Grobbelaar	Origin of high salinity groundwater in the Pinelands area	Chris Harris
2023	Fortune Ntlantla	Melting processes of mafic granulites	Johann Diener
2023	Nikita Amber Erasmus	The geology of Karoo basalts and sandstone interbeds NW of Bulawayo, Zimbabwe	Geoffrey Howarth and Emese Bordy
2023	Sihle Gqoboka	Constraints on the origin of the La Debo orogenic gold deposit using trace elements in sulphides	Geoffrey Howarth
2023	Neo Metsing	Sedimentological and petrographic analysis of the lower Stormberg Group on Ben Avis, Eastern Cape	Emese Bordy
2023	Karabo Hadebe	Characterising surface deposits to reconstruct the end phase of the Kalkkop impact crater palaeolake, Eastern Cape, South Africa	Robyn Pickering

Year	Name	Thesis title	Supervisor
2022	Onke Boya	Isotope Hydrology of borehole water at the University of Cape Town	Chris Harris
2022	Rabia Jacobs	Geochemistry of fossilised Middle Pleistocene termite nests	Miengah Abrahams
2022	Anele Matsebula	Analysis of high resolution stereo-satellite imagery to study the Tsau  Khaeb and Hai-s fault scarps in SW Namibia	Alastair Sloan
2022	Matthew Kiwvits	Origin of apatite in the Andriesfontein kimberlite: implications for melt-SCLM interactions	Geoffrey Howarth
2022	Sinongo Nkazimulo Millenium Zuma	Geochemistry and biota of an ancient lake-refining the southern African Early Jurassic palaeoclimate (Thabana Morena, Lesotho)	Miengah Abrahams
2022	Anele Joni	Origin of corundum xenocrysts from the Kareevlei Kaapvaal lamproite	Geoffrey Howarth
2022	Danielle Visagie	Automatic earthquake detection via Machine Learning in Leeu Gamka, Karro, RSA	Diego Quiros
2021	Joshua Munro	The Phalaborwa Complex: An investigation of the Stable Isotope Composition	Chris Harris
2021	Tumi Mogadime	The geochemistry and petrogenesis of the Keishohe and Teufelskuppe carbonatites, Southern Namibia	Philip E. Janney
2020	Nomvo F Kasolo	H and O isotope composition of Cape Town rainfall between 2009-2019: An isotopic perspective of the 2015-2017 'great drought'	Chris Harris
2020	Kamogelo Molokele	Kimberlite olivine core and rim chemical analysis: Comparison of the off-craton border kimberlite with on-craton South African kimberlites	Geoffrey Howarth
2020	Rosy Finlayson	Spatial analysis of the stable isotope composition of Cape Town groundwater: Southern Suburbs and Cape Flats	Chris Harris and Judith Sealy
2020	Mapaseka Mashego	The use of Ce anomalies for tracking oxygen levels in Ediacaran shelf environments	Rosalie Tostevin
2020	Thendo Nembamula	Olivine chemistry in the Finsch orangeite	Geoffrey Howarth
2020	Zandi Rothman	The Wondercave stalagmite: unraveling Holocene palaeoclimate signals from the Cradle of Humankind, South Africa	Robyn Pickering and Tara Edwards
2020	Ayabonga Afika Mtsotso	Investigation of recharge rates of springs on the lower slopes of Table Mountain using oxygen and hydrogen isotopes	Chris Harris
2019	Riyaad Mukaddam	The Resurrection of <i>Kalosauropus isp. A massospondylid</i> track from the Lower Jurassic of southern Africa	Emese M. Bordy
2019	Njabulo Ndimande	The mineral chemistry of perovskite from Weasua, Man Craton, West Africa	Geoffrey Howarth
2019	Sinelethu Hashibi	A comparison of kimberlite indicator minerals and their geochemistry from two kimberlites of widely varying diamond grade from the Barkly West region, Northern Cape, South Africa	Philip E. Janney
2019	Katleho Mathafeng	Classification and petrogenesis of ultrafresh kimberlites of the Tongo dike, Sierra Leone	Geoffrey Howarth
2019	Jacques van der Merwe	Integration of geophysical fault mapping and tectonic geomorphology to investigate Cenozoic deformation in Botswana	Alastair Sloan
2019	Mcdonald Takondwa	Oxygen isotope variation in deformed Neoproterozoic diamictite at Koegel Fontein	Rosalie Tostevin

<b>Year</b>	<b>Name</b>	<b>Thesis title</b>	<b>Supervisor</b>
2019	Batande Getyengana	Characterizing, describing and analysing sedimentary deposits from Witberg 1 Quarry, Northern Cape to reconstruct depositional environment	Robyn Pickering
2019	Elsa Santos	Mineral Chemistry of the Pukapuka volcanic ridges, South Pacific Ocean	Philip E. Janney
2019	Shaakirah Adams	The tectonic geomorphology of "active" South African faults	Alastair Sloan
2018	Wendy Khumalo	Investigating the instrumental record of climate seasonality and variability in the Northern Cape: A modern analogue for the Middle Stone Age deposits at Ga-Mohana Hill	R Pickering, C. Reason, R. Blamey, J Wilkins, B. Schoville
2018	Timothy Jones	Mapping of structural features in Eastern Botswana Implications for seismic hazard within a stable continental region	Alastair Sloan
2018	Teboho Lekaota Nkotsi	Geochemical and petrological variations of kimberlites found in the Satellite pipe, Letseng Diamond Mine, Lesotho	Philip E. Janney
2018	Gordon Harding	Depositional history of the western continental slope, South Africa since the initiation of Marine Isotope Stage 3	John Compton and Eugene Bergh
2018	Brent Bouchier Bowker	To what depth does brittle failure occur? Towards a global map of seismothickness	
2017	Xolamzi Mqhayi	Copper mineralization in the Zambian Kansanshi mine: an economic geological assessment	Lynnette Greyling and Eugene Bergh
2017	Rivoningo E. Chauke	Quaternary depositional history on the continental slope offshore Cape Town, South Africa	John Compton and Eugene Bergh
2017	Andri M Ntema	Potential oxygen depletion in the water column during mining Namibia phosphorite deposits	John Compton and Eugene Bergh
2017	Ntuthuko Phakama Khuzwayo	The micromorphology and geochemistry of Sea Harvest Calcretes, South Africa	Robyn Pickering
2017	Lorena A. Tafur	Mineral equilibria constraints in the feasibility of fluid-fluxed melting in the continental crust	Johann FA. Diener
2017	Jorgina Ndahambelela Akushika	Geochemistry of Eccles Ridge exploration target, SE of Skorpion Zinc mine, Karas region Namibia	Lynnette Greyling
2017	Chad Peel	Mineral chemistry of Saltpeterkop Megacrysts	Philip E. Janney
2017	Guy Salomon	A critical re-evaluation of the first global stress drop catalogue	R. Alastair Sloan
2017	Siyanda Mabaso	The mineral chemistry of olivine melilitites in Saltpeterkop	Philip E. Janney
2017	Maposholi Mokheithi	The Early Jurassic Sotho lake: palaeo-climatic signals from the upper Elliot Formation at Cana, Lesotho	Emese M. Bordy and Lara Sciscio
2017	Akhil Rampersadh	Dinosaur behaviour in a dynamic Early Jurassic palaeo-ecosystem: a multidisciplinary study of the uppermost Elliot Formation at Ha Nohana, Lesotho	Emese M. Bordy and Lara Sciscio
2015	Caroline Wood	Relocations of the Aftershocks of Africa's Largest Instrumentally Recorded Earthquake	Beth and Richard Kahle
2015	Caylee Luden	An investigation into the Tulbagh-Ceres fault-line: Trying to understand intraplate faults on stable	Bath and Richard Kahle

<b>Year</b>	<b>Name</b>	<b>Thesis title</b>	<b>Supervisor</b>
2015	Jonathan William Martin	The Accomodation of Strain in cooling Anatexis	J.F.A. Diener and A. Fagereng
2015	Justin Paul	The Geochemistry ad Petrogenesis of the off-craton, Group 1 Ondermatjie and Border Kimberlites; Warmbad cluster South East Namibia	Philip Janney
2015	Lucrecia Maboane	The Role of Fluids during the Formation Processes of the Garies Wollastonite deposit, Namaqualand South	Chris Harris
2015	Miengah Abrahams	The Stratigraphic value of the Pronksberg bentonite in the upper Elliot Formation (Early Jurassic) Eastern Cape, South Africa	Emese Bordy
2015	Sacsha Dyer	Petrology of the metapelites in the contact aureole of the Peninsula pluton, Cape Town, South Africa	Johann Diener
2015	Silence Magagula	Geochemical characterization of Archaean greenstone belts of Kenya and Uganda	Lynnette Greyling
2015	Travis America	Depositional history of the Cretaceous conglomerates and associated elastic rocks, NNW of mossel Bay, Western Cape, South Africa	Emese Bordy
2014	Abel Diogo	AVO analysis for reservoir classification over E-CB/E-BK area in the Bredasdorp Basin (Block 9)	George Smith and Sbonelo
2014	Adrian Peter Bunge	High-resolution Sedimentological and Palaeontological Analysis of the Upper Elliot Formation (Early Jurassic)	Emese Bordy
2014	Antonia de Carvalho	Locating the Boundary of the Katberg and Burgersdorp Formations in the Main Karoo Basin, Free State, South	Emese Bordy

1995	Benford L. Mokoatle	History of deposition, weathering and metamorphism of the Mapaiskraal, Mizpa and Vaal Reef members in the Central Rand Group at Klerksdorp	W.E.L. Minter, J.P. Willis and H.E. Frimmel
1995	Kim Philander	Characterization and correlation of the lower critical zone in the Brits Section, Western Bushveld Complex	D.L. Reid and M Tredoux
1995	Jens Klump	A pilot study of the Swartuggens Kimberlite Dyke Swarm	J.J. Gurney and A.P. Le Roex
1995	Adrian C. Adams	The sedimentology, stratigraphy, structure and metamorphism of an overturned section through the Central Rand Group in the collar of the Vedefort Structure	W.E.L. Minter and C.W. Stowe
1994	Alan Shapiro	The deformational history of the Witteberg Group South West of Laingsburg, Western Cape	A.R. Newton and C.H.J. Hartnady
1994	Andrew H. Menzies	The petrography and geochemistry of chromite pods from Jagdlust section, Eastern Bushveld Igneous Complex	D.L. Reid and C.W. Stowe
1994	Carole Kopman	Geochemistry of the Rosh Pinah Formation of the Gariep Group, Namibia	H Frimmel and AP. Le Roex
1993	Warwick Stuart Board	An assessment of heavy metal pollution in Zoar Vlei, Cape Peninsula, with specific reference to Zn, Cu, Pb and As	J.P Willis
1993	Hakan Tarras- Wahlberg	A geochemical study of the KWV-Effluent site in Robertson	J.P. Willis
1993	Peter R. Hildebrand	The diamond potential of Zimbabwe: Historical, Geotectonic and Kimberlite Heavy Mineral Chemistry Considerations	J.J. Gurney
1993	James L. Gurney	Variations in the mantle sample: a study if garnet and ilmenite from three kimberlites at Premier Mine	J.J. Gurney
1993	C.M. Farmer	Aspects of trace metal distribution and pollution in the sediments of Zoar Vlei, Cape Town	J.P. Willis
1993	Lance Reynolds	Aspects of the W-Mo prospects of Xamchab and Xochasib, Lower Orange River Region	
1993	R.S. Mc Keown	Benthic Foraminifera and ostracoda from the Natal Valley, South West Indian Ocean	R.V. Dingle and J. Rogers
1993	C.T. Rikhotso	Effects of structure and mineralogy on the shear strength characteristics of residual soils in the Cape Peninsula and some South African soils - an application of the ring shear apparatus to measurement of residual strength	Jon McStay and Hartwig Frimmel
1992	Ina Smit	Stratigraphic and tectonic study of the Southern Natal Valley based seismic reflection profiling	Chris Hartnady
1992	Andreas Spath	The geochemistry, petrogenesis and source region characteristics of lavas from the island of Moheli, Comores Archipelago, Western Indian Ocean	Anton Le Roes
1992	Nicole Jane Cardis	Comparative aspects of the waters and associated sediments of three valleys on the Cape Flats	

Year	Name	Thesis title	Supervisor
1992	Ian Stevenson	A detailed seismic stratigraphic approach to interpreting high-resolution, shallow seismic data from the middle shelf off Southern Namaqualand	
1992	William Michael Feast	Aspects of rock slope stability analysis in deep excavations in granite at Clifton	
1992	A.J. McLachlan	Seasonal beach morphology variations and sediment transport around the wreck of the Oosterland in Table Bay between the estuaries of the Diep and Salt Rivers	
1992	Iuma Aparecida Martinez	The relative importance of the conductive and convective heat transfer mechanisms in the contact thermal aureole of the Kuboos Pluton	
1991	Esme van Achterbergh	Phase petrology of the calc-silicate rocks adjacent to the George pluton	
1991	Clint Williams	The petrology and origin of the granulitic gabbros of the Okonjeje Igneous Complex in Namibia	A.P. Le Roex, A.R. Duncan, S. Milner and R.T. Watkins
1991	D.K. Reynolds	The significance of diamictites in the Witwatersrand Government Subgroup, Klerksdorp Goldfield, South Africa	WEL Minter and J Rogers
1991	Dewatia Smit	Pyroxene-phlogopite-ilmenite "quenched" xenoliths from Kimberlite	
1991	Gail B. Kiviets	The petrography and geochemistry of chromitite seams from the Uitkomst Layered Ultramafic Complex, Eastern Transvaal	
1991	Eric R Clark	Geology of the granitoids in the Nous Wells Area	
1991	Paul Hilliard		
1991	Steven Horwood	Application of geology to rock slope stability, Malmesbury Group, Devil's Peak, Cape Town	
1990	R. Whittle-Herbert	Deformation structures in the Table Mountain Group centred on Vogelgat Nature Reserve, Hermanus	
1990	Hendrik J. van der Merwe	The petrography of Mesozoic and Cenozoic rocks on the middle shelf between the Orange River and Chameis Bay	
1990	Martina A.J. van der Heyden	Potential residence sites of anthropogenic chromium in Princess Vlei, South-Western Cape Province	
1990	Nikita Jon Wullschleger	Processing and interpretation of Landsat thematic mapper data of an area centred on Ladismith in the Cape Fold Belt	
1990	I. Naicker	A GIS study relating to gold mineralization in the Svengali Gold prospect, Barberton Greenstone Belt, Eastern Transvaal	
1990	C.N. Rippon	The sedimentology and depositional environment of gold bearing footwall channel deposits beneath the Kimberley Reef, Leslie Gold Mines Ltd., Evanders goldfield	
No date	Lebogang J. Koma	The Kopeberg Suite-A model for crustal assimilation as a consequence of orbicule formation - Nigramoep Basic Body	Dave Reid

<b>Year</b>	<b>Name</b>	<b>Thesis title</b>	<b>Supervisor</b>
No date	Teresa Steele	Aspects of the petrology of the Grootpenseiland South Alkaline Ring Complex: Lower Orange River	Dave Reid
No date	Nduduzo Shange	Macro and microtectonic study of the fault reactivation mechanisms in the Nuy Valley, Worcester (South Africa)	Giulio Viola
No date	D. Anderson	Pan-African retrogression of the Koperberg Suite at Nigramoep Mine, Okiep Copper District, Namaqualand	Dave Reid
No date	Nevan Pillay	Petrology of a suite of hawaiite-Mugearite-Benmoreite lavas from Lenderut Volcano, Gregory Rift, Southern Kenya	A.P. Le Roex and C. Harris
