- being accessed without permission
- being changed
- being destroyed

If any of these things happen, it is called a breach.

The more sensitive the information is, the better we protect it. Although we cannot guarantee that we will never experience a breach, we check our systems regularly for security issues. If something should happen, we have taken steps to minimise the threat to your privacy. We will let you know if anything has happened to your personal information. We will also let you know what you can do to minimise the impact of the breach. If you suspect that we (or you) have had a security breach, please let us know immediately by sending an email to uctcsirt@uct.ac.za.
