                       12-00 Review Panel layperson summary/questions (**Maths Room M304**) **NB CHANGED**

**DOCUMENTATION AND ATTENDANCE**

Documents for background (BG) and for discussion (P) at the event have already been and for the next few days will continue to be posted on the workshop website: <https://science.uct.ac.za/maram/2024-workshop>. Attendees should download beforehand, as hard copies will NOT be provided at the event.

**Could those** (who have not already done so – thanks to those who have) **wishing to attend part or all of the event please send an email to Di Loureiro (di.lapido@uct.ac.za)** indicating the topics for which they wish to attend (this is not necessary for attendance at the final Friday lay summary session). Note that, for various reasons (e.g., copyright), some documents cannot be placed on the workshop website; these will be emailed to (only) those advising their intent to attend for the topic concerned.

It is probable that virtual (by Teams) attendance may be possible for all events including the final layperson summary. More details in that regard will be circulated in the next few days if such arrangements prove to be successful.

Note that, excepting as regards the possibility of virtual attendance, no further general circulars about the event will be widely distributed in this manner. **Further information, as appropriate, will be emailed ONLY to those who have advised their intent to participate.**

Those who wish to attend only the layperson summary session at 12 noon on the afternoon of Friday 6 December need not email Di Loureiro to so advise, unless they wish also to be included in further circulation.
